

United States Assay Office,

BOISE CITY, IDAHO,

July 2^d, 1887.

Sir.

I have the honor to state that the business of this office is increasing so rapidly that a platinum parting apparatus seems to me indispensably necessary to insure accuracy and despatch,

I would therefore request that you request Mr Eckfeldt of the Philadelphia Mint to have made and forwarded to me a complete parting apparatus for the simultaneous assaying of eight gold deposits.

I take this course in preference to ordering directly myself as Mr Eckfeldt being on the spot can probably get a better and cheaper apparatus than I could from this distance.

With the limited appropriation for the year this will be a heavy Expense but we assayed last year over 900 deposits and there is every promise of from 1200 to 1500 this year which with our small force it will be impossible to handle safely without the best apparatus.

Very Respectfully
H. F. Hilly

Assayer in Charge

Hon. Jas. P. Kimball.
Director of the Mint.
Washington D.C.
